

PHARMACOLOGICAL

REVIEWS

**Special Issue on
the Nuclear
Receptor
Superfamily**

A Publication of the
American Society for
Pharmacology and
Experimental Therapeutics

Access Pharmacological Reviews beginning with volume 1, issue 1, 1949

Pharmacological Reviews starting with volume 1, issue 1, is now online. All pre-1997 articles are available as PDF files. Article titles, authors, and abstracts are fully searchable.

Access to the Pharmacological Reviews back issues is included with subscriptions. Nonsubscribers may access these issues using our pay-per-view system. If your institution has a print subscription to Pharmacological Reviews, you should have online access as well. Ask your librarian to contact ASPET at info@aspet.org. We'll help establish access.

ASPET membership includes online access to all five ASPET journals. We'll gladly help you activate your subscription if you haven't done so yet. Benefit from the full Pharmacological Reviews archive today!

ASPET continues to make articles from 1997 onward freely available 12 months after publication, and IUPHAR nomenclature articles are freely accessible upon publication.
