

CONTENTS

NUMBER 1, MARCH 1954

Symposium on Neurohumoral Transmission, Physiological Society of Philadelphia, September 11 and 12, 1953	
I. Introduction. OTTO LOEWI.....	3
II. The Beginnings and the Prospects of Neurohumoral Transmission. SIR HENRY H. DALE.....	7
III. Epinephrine and Norepinephrine.	
Adrenaline and noradrenaline. Distribution and action. U. S. VON EULER..	15
Metabolism of epinephrine and norepinephrine. H. BLASCHKO.....	23
Distribution and metabolism of adrenergic mediators. G. B. WEST.....	29
Norepinephrine and epinephrine in the central nervous system. M. VOGT..	31
The action of <i>l</i> -noradrenaline and adrenochrome on unfatigued mammalian muscle. M. GOFFART.....	33
Adrenaline and noradrenaline in blood and urine. A. PEKKARINEN.....	35
IV. Acetylcholine and Cholinesterases.	
Acetylcholine metabolism of nervous tissue. C. O. HEBB.....	39
The metabolism of acetylcholine. J. N. WALOP.....	45
The localization of specific cholinesterase in the retina. G. B. KOELLE....	47
The action of anticholinesterases on spinal reflexes following intra-arterial injection. B. HOLMSTEDT.....	49
V. Transmission and Block at the Motor Endplate and in Autonomic Ganglia.	
The interruption of neuromuscular transmission and some of its problems. E. J. ZAIMIS.....	53
Transmission and block in autonomic ganglia. W. D. M. PATON.....	59
Transmission and block in sympathetic ganglia. F. H. SHAW.....	69
Transmission at the motor endplate and ganglionic synapse. W. L. M. PERRY..	71
VI. The Problem of Transmission at Chemoreceptors.	
Transmission at chemoreceptors. G. LILJESTRAND.....	73
Acetylcholine and transmission at chemoreceptors. M. DE BURGH DALY....	79
Is there chemical transmission at chemoreceptors? W. W. DOUGLAS.....	81
VII. Transmission in the Central Nervous System and Sensory Transmission.	
Central and sensory transmission. W. S. FELDBERG.....	85
Central and sensory transmission. A. S. V. BURGÉN.....	95
The effect of acetylcholine-like substances on sensory receptors. F. BUCH- THAL.....	97
Antidromic vasodilation in the paw of the cat. B. UVNÄS.....	99
Central and sensory transmission. A. K. MCINTYRE.....	103
Ganglionic and central transmission. A. S. MARRAZZI.....	105
VIII. Local Hormones.	
Acetylcholine as a local hormone for ciliary movement and the heart. J. H. BURN.....	107
Choline esters as local hormones. N. AMBACHE.....	113
Darmstoff, a gut-stimulating compound occurring in the intestinal wall. W. VOGT.....	117
The place of histamine in neurohumoral transmission. J. L. PARROT.....	119
IX. Summary. R. W. GERAUD.....	123

NUMBER 2, JUNE 1954

Drugs and Porphyrin Metabolism. M. WEATHERALL.....	133
The Mode of Action of Drugs Upon Intestinal Motility. E. M. VAUGHAN WILLIAMS..	159

Experimental Methods Used in Determining Chronic Toxicity. J. M. BARNES AND F. A. DENZ.....	191
--	-----

NUMBER 3, SEPTEMBER 1954

The Role of Calcium Ions in Neural Processes. FRANK BRINK.....	243
Metabolic Studies on Histidine, Histamine, and Related Imidazoles. HERBERT TABOR.....	299
Mutagens. E. BOYLAND.....	345

NUMBER 4, DECEMBER 1954

Drug Allergy. EDWARD A. CARR, JR.....	365
Pharmacology of Indolealkylamines. V. ERSPAMER.....	425
The Role of Fluids, Electrolytes and Plasma Proteins in Experimental Traumatic Shock and Hemorrhage. SANFORD M. ROSENTHAL AND R. CARL MILLICAN.....	489
Expectorants and Respiratory Tract Fluid. ELDON M. BOYD.....	521

SYMPOSIUM ON NEUROHUMORAL TRANSMISSION
 PHYSIOLOGICAL SOCIETY OF PHILADELPHIA
 SEPTEMBER 11 AND 12, 1953*†

TABLE OF CONTENTS

	<i>Page</i>
I. Introduction. OTTO LOEWI.....	3
II. The beginnings and the prospects of neurohumoral transmission. SIR HENRY H. DALE.....	7
III. Epinephrine and Norepinephrine.	
Adrenaline and noradrenaline. Distribution and action. U. S. VON EULER.....	15
Metabolism of epinephrine and norepinephrine. H. BLASCHKO.....	23
Distribution and metabolism of adrenergic mediators. G. B. WEST...	29
Norepinephrine and epinephrine in the central nervous system. M. VOGT.....	31
The action of <i>l</i> -noradrenaline and adrenochrome on unfatigued mam- malian muscle. M. GOFFART.....	33
Adrenaline and Noradrenaline in blood and urine. A. PEKKARINEN...	35
IV. Acetylcholine and Cholinesterases.	
Acetylcholine metabolism of nervous tissue. C. O. HEBB.....	39
The metabolism of acetylcholine. J. N. WALOP.....	45
The localization of specific cholinesterase in the retina. G. B. KOELLE..	47
The action of anticholinesterases on spinal reflexes following intra- arterial injection. B. HOLMSTEDT.....	49

* This symposium was made possible by the generous financial help of Smith, Kline and French, Inc., Philadelphia.
 † The editorial board of *Pharmacological Reviews* gratefully acknowledges the help given by Dr. George B. Koelle in editing the contributions to the symposium.

V. Transmission and Block at the Motor Endplate and in Autonomic Ganglia.	
The interruption of neuromuscular transmission and some of its problems. E. J. ZAIMIS.....	53
Transmission and block in autonomic ganglia. W. D. M. PATON.....	59
Transmission and block in sympathetic ganglia. F. H. SHAW.....	69
Transmission at the motor endplate and ganglionic synapse. W. L. M. PERRY.....	71
VI. The Problem of Transmission at Chemoreceptors.	
Transmission at chemoreceptors. G. LILJESTRAND.....	73
Acetylcholine and transmission at chemoreceptors. M. DE BURGH DALY	79
Is there chemical transmission at chemoreceptors? W. W. DOUGLAS..	81
VII. Transmission in the Central Nervous System and Sensory Transmission.	
Central and sensory transmission. W. S. FELDBERG.....	85
Central and sensory transmission. A. S. V. BURGEN.....	95
The effect of acetylcholine-like substances on sensory receptors. F. BUCHTHAL.....	97
Antidromic vasodilatation in the paw of the cat. B. UVNÄS.....	99
Central and sensory transmission. A. K. MCINTYRE.....	103
Ganglionic and central transmission. A. S. MARRAZZI.....	105
VIII. LOCAL HORMONES.	
Acetylcholine as a local hormone for ciliary movement and the heart. J. H. BURN.....	107
Choline esters as local hormones. N. AMBACHE.....	113
Darmstoff, a gut-stimulating compound occurring in the intestinal wall. W. VOGT.....	117
The place of histamine in neurohumoral transmission. J.-L. PARROT..	119
IX. Summary. R. W. GERARD.....	123
