

## CONTENTS

### No. 1, March 1967

The biochemistry of melanotropic agents. SAUL LANDE AND AARON B. LERNER.....	1
Biochemical aspects of the actions of drugs on spermatogenesis. B. N. FOX AND MARGARET FOX.....	21
Membrane lipids and drug action. A. W. CUTHBERT.....	59

### No. 2, June 1967

The molecular basis of drug action. HENRY G. MAUTNER.....	107
Carbon tetrachloride hepatotoxicity. RICHARD O. RECKNAGEL.....	145
Recent advances in chemotherapy of viral diseases. WILLIAM H. PRUSOFF.....	209
Chlorpromazine and endocrine function. D. DE WIED.....	251
Erratum in vol. 18, p. 1170.....	288

### No. 3, September 1967

Ion movements in junctional transmission. B. L. GINSBURG.....	289
Pharmacological implications of microsomal enzyme induction. A. H. CONNEY.....	317
Sympathetic regulation of metabolism. JEAN HIMMS-HAGEN.....	367

### No. 4, December 1967

Opioid antagonists. W. R. MARTIN.....	463
Disturbances of liver porphyrin metabolism caused by drugs. F. DE MATTEIS.....	523
The metabolism of vitamin A. JAMES ALLEN OLSON.....	559
Index.....	597
