Pharmacological Reviews

Volume 29

1977

- Acetazolamide, effect on ion contents, 45
- Acetylcholine, primary or secondary release in synaptic transmission, 241
- Acetylcholine
release
effect of *d*-tubocurarine on, 234
measurement in neuromuscular function, 233
prejunctional, in synaptic transmission, 236
- Acetylcholine receptors
postjunctional, in synaptic transmission, 235
- Acetylsalicylic acid, immunoassay, 131
- Acetylstrophanthidin, immunoassay, 136
- Actinomycin D, immunoassay, 133
- Adrenergic agonists
heart reactivity to, 21
responses of oviduct, modifying factors, 89
- Adrenergic antagonists, heart reactivity to, 21
- Adrenergic blocking agents, immunoassay, 119
- Adrenergic innervation
oviduct
biochemical studies of, 79
noradrenaline content, changes in, 79
role in regulation of mammalian ovum transport, 67
- Adrenergic nerve stimulation, oviduct responses, factors modifying, 89
- Adrenergic neuroeffector transmission in developing heart, 17
- Adrenergic transmission
agents impairing, effect on ovum transport and fertility, 94
in oviduct, physiological and pharmacological studies related to, 85
- Adrenoceptor agonists, effect on ovum transport and fertility, 94
- Adrenoceptor antagonists, effect on ovum transport and fertility, 94
- Adrenoceptors, in oviduct, 87
- Adriamycin, immunoassay, 133
- Agglutination inhibition, 116
- Akera, Tai, and Brody, Theodore M. The role of Na^+, K^+ -ATPase in the inotropic action of digitalis, 187
- Amanitin, immunoassay, 160
- Amikacin, immunoassay, 124
- Amino acids
excitatory, relative potency of (table), 307
neuroexcitatory, medical implications of the study of, 314
neurotoxic
histology of retinal lesions, 302
historical perspectives, 301
research tools, 311
structurally related analogs and, 301
structure-function relationships of neurotoxic excitatory (table), 309
- Aminoglycoside antibiotics, immunoassay, 124
- Aminopyridines, effects on ion concentration in the central nervous system, 38
- Amitriptyline, immunoassay, 129
- Amphetamine, immunoassay, 141
- Analgesics, immunoassay, 147
- Anesthetics
local
effects on metabolism, 43
immunoassay, 146
- Anileridine, immunoassay, 147
- Anti-anxiety drugs, immunoassay, 119
- Antiarrhythmic agents, immunoassay, 123
- Antibiotics, immunoassay, 124
- Antibodies, drug-specific, detection and characterization, 111
- Anticoagulants, immunoassay, 127
- Anticonvulsants, immunoassay, 127
- Antidepressants, immunoassay, 128
- Antidiarrheal drugs, immunoassay, 130
- Antihypertensive drugs, immunoassay, 130
- Anti-inflammatory agents, immunoassay, 131
- Antimuscarinic drugs, immunoassay, 133
- Antipyrine, immunoassay, 132
- Antitumor drugs, immunoassay, 133
- Antiulcer drugs, immunoassay, 136
- 1- β -D-Arabinofuranosylcytosine, immunoassay, 134
- 1- β -D-Arabinofuranosyluracil, immunoassay, 134
- Arsenicals, immunoassay, 160
- Atropine, immunoassay, 133
- Autonomic neuroeffector transmission, ontogenetic development of, in embryonic and fetal hearts, 3
- Barbiturates
effects on
ion concentrations in the central nervous system, 38
ion contents, 45
ion distribution in the CNS, 42
ion transport, 49
metabolism, 43
immunoassay, 153
- Benzodiazepines, immunoassay, 119

- Betamethasone, immunoassay, 154
 Betamethasone 17-benzoate, immunoassay, 155
 Bleomycin, immunoassay, 134
 Blood clotting, effects of excess magnesium on, 287
 Bone, effects of excess magnesium on, 287
 Brain, extra- and intracellular fluid spaces, magnitudes of, 38
 Brain slices
 resting state, ouabain effect on ion transport in, 51
 stimulation, effects of phenytoin and ouabain, 53
 Brody, Theodore M. See Akera and Brody, 187
 Bronchodilators, immunoassay, 136
 Bumetanide, immunoassay, 146
 Butler, Vincent P., Jr. The immunological assay of drugs, 103
 1-Butylbiguanide, immunoassay, 152
 Butyrophenones, immunoassay, 122
- Caffeine, immunoassay, 142
 Carbamazepine, immunoassay, 127
 Carbenoxolone, immunoassay, 136
 Carcinogens, immunoassay, 160
 Cardiac glycosides
 enzyme interaction and, 191
 immunoassay, 136
 Cardiotoxicity
 digitalis, 214
 magnesium, 286
 Carotid baroreceptor, effect of hypermagnesemia on, 285
 Cassaine, Na^+, K^+ -ATPase or sodium pump activity, inhibitor of, 210
 Catecholamine(s)
 reactivity of developing heart to, 21
 transmitter action, mechanism for pacemaker acceleration, 27
 Cell function, Na^+, K^+ -ATPase, role in, 190
 Central nervous system
 drug-induced alterations of ion distribution at the cellular level, 35
 stimulants, immunoassay, 141
 Chloramphenicol, immunoassay, 125
 Chlorpromazine
 effect on
 ion contents, 45
 metabolism, 43
 Cholinergic agents, immunoassay, 144
 Cholinergic agonists, reactivity of developing heart to, 9
 Cholinergic antagonists, reactivity of developing heart to, 9
 Cholinergic drugs
 actions, on motor nerve terminals, 221
 transmitter release and, 241
 Cholinergic neuroeffector transmission in developing heart, 6
 Cholinoceptive action, prejunctional, 241
 Clindamycin, immunoassay, 125
 Clomipramine, immunoassay, 129
 Clonazepam, immunoassay, 127
- Clonidine, immunoassay, 130
 Cocaine
 effect on ion contents, 45
 immunoassay, 146
 Codeine, immunoassay, 147
 Colchicine, immunoassay, 132
 Conversations in pharmacology, 185
 Cyclazocine, immunoassay, 146
 Cyproterone acetate, immunoassay, 155
- Dapsone, immunoassay, 126
 Daunorubicin, immunoassay, 134
 Debrisoquin, immunoassay, 130
 Denervation, surgical, effect on ovum transport and fertility, 93
 Deoxyuridines, 5-halogenated, effects of incorporation of, into DNA of eukaryotic cells, 249
 Desmethylimipramine, immunoassay, 129
 Dexamethasone, immunoassay, 155
 Dibenzodiazepines, immunoassay, 122
 Digitalis
 action mechanism, history of studies, 188
 action on
 Na^+, K^+ -ATPase *in vitro*, 193
 Na^+, K^+ -ATPase *in vivo* and in isolated hearts, 197
 sodium pump activity, 205
 cardiotoxicity, 214
 derivatives of, force of cardiac contraction and enzyme inhibition, 196
 inotropic action of, mechanism, 215
 role of Na^+, K^+ -ATPase in inotropic action of, 187
 time course of the inhibition of enzyme activity and inotropic action, 195
 Digitoxin, immunoassay, 136
 Digoxin, immunoassay, 137
 9,10-Dihydroergotamine, immunoassay, 153
 2,5-Dimethoxy-4-methylamphetamine, immunoassay, 142
 Diphenylhydantoin, immunoassay, 127
 Diuretics, immunoassay, 146
 DNA
 eukaryotic cells, effects of incorporation of 5-halogenated deoxyuridines into, 249, 255
 protein binding, 5-halogenated deoxyuridines, effects on, 258
 regional incorporation of analog into, 260
 Drug(s)
 antibodies to, 106
 development of immunoassays, 107
 drug derivatives and
 nonradioactive labeling, 111
 radioactive labeling, 110
 immunological assay of, 103
 -induced alterations of ion distribution at the cellular level of the central nervous system, 35
 protein conjugates
 characterization of, 108
 immunization with, 109
 specific antibodies, detection of, 111

- Drug immunoassay (see also specific name of drug)
- adrenergic blocking agents, 119
 - analgesics, 147
 - anesthetic agents, local, 146
 - antianxiety drugs, 119
 - antiarrhythmic agents, 123
 - antibiotics, 124
 - anticoagulants, 127
 - anticonvulsants, 127
 - antidepressants, 128
 - antidiarrheal drugs, 130
 - anti-inflammatory agents, 131
 - antihypertensive drugs, 130
 - antimuscarinic drugs, 133
 - antitumor drugs, 133
 - antiulcer drugs, 136
 - applications of, 118
 - aprinidine, 123
 - available (table), 120
 - bronchodilators, 136
 - cardiac glycosides, 136
 - central nervous system stimulants, 141
 - cholinergic agents, 144
 - diuretics, 146
 - hallucinogens, 141
 - hypnotics, 153
 - narcotics, 147
 - narcotic antagonists, 146
 - neuromuscular blocking agents, 152
 - oral hypoglycemic agents, 152
 - oxytocic agents, 153
 - procaine amide, 123
 - quinidine, 124
 - renal tubular transport inhibitors, 153
 - sedatives, 153
 - steroids, synthetic, 154
 - toxins, 160
 - vitamins, 163
- Efferent innervation, origin, in oviduct, 74
- Electrolyte transport, hypermagnesemia effects on, 286
- Endocrine systems, hypermagnesemia effects on, 287
- Enzyme immunoassay, 115
- Enzyme interaction with cardiac glycosides, 191
- Ethanol
- effect on
 - ion contents, 45
 - metabolism, 43
- Ethoxusimide, immunoassay, 128
- Ethinylestradiol, immunoassay, 156
- Etorphine, immunoassay, 148
- Eukaryotic cells, effects of incorporation of 5-halogenated deoxyuridines into DNA of, 249
- Extraretinal lesions, histology of, neurotoxic amino acids and, 303
- Fentanyl, immunoassay, 148
- Fertility, effect of drugs and procedures that modify function of sympathetic nervous system, 93
- Fluoxymesterone, immunoassay, 156
- Flupenthizol, immunoassay, 122
- Genistein, immunoassay, 161
- Gentamicin, immunoassay, 124
- Gitoxin, immunoassay, 140
- Gitalexin, immunoassay, 140
- Glial cells
- neurons and, 36
 - ouabain effect in uptake studies on cultures of, 50
- Glibenclamide, immunoassay, 152
- Glisoxepide, immunoassay, 152
- Glutethimide, immunoassay, 154
- Goz, Barry. The effects of incorporation of 5-halogenated deoxyuridines into the DNA of eukaryotic cells, 249
- Hallucinogens, immunoassay, 141
- 5-Halogenated deoxyuridines
- effects of incorporation into DNA of eukaryotic cells, 249
 - effect on
 - DNA protein binding, 258
 - RNA synthesis, 263
 - incorporation into DNA, 255
 - incorporation into DNA of eukaryotic cells
 - action mechanism, 255
 - biological effects, 250
 - inhibition of differentiation, 253
 - mutagenicity, 250
 - nucleotide pools, effect on action of, 256
 - oncogenic virus induction by, 251
 - regional incorporation of analog into DNA, 260
 - teratogenicity, 250
 - toxicity, 250
- Heart
- development of, synopsis, 4
 - digitalis action on Na^+, K^+ -ATPase *in vivo* and in isolated, 197
 - effects of excess magnesium on, 281
 - embryonic, ontogenesis and innervation, 3
 - fetal, ontogenesis and innervation, 3
 - parasympathetic innervation
 - cholinergic agonists and antagonists, 9
 - cholinergic neuroeffector transmission, 6
 - morphological and chemical studies, 5
 - sympathetic innervation
 - adrenergic agonists and antagonists, 21
 - adrenergic neuroeffector transmission, 17
 - morphological and chemical studies, 13
 - transmitter action, 27
- Heart muscle, mechanism by which the force of contraction may be increased, 188
- Hertz, Leif. Drug-induced alterations of ion distribution at the cellular level of the central nervous system, 35
- Hormone levels, noradrenaline content, changes correlated with, 81
- Hormone, sex, noradrenaline content changes with administration of, 82

- Hydralazine, immunoassay, 130
 Hydromorphone, immunoassay, 148
 6-Hydroxydopamine, effect on ovum transport and fertility, 83
 (*)-2-Hydroxy-N-cyclopropylmethylmorphinan, immunoassay, 147
 Hypnotics, immunoassay, 153
 Hypoglycemic agents, oral, immunoassay, 152
 Hypotension, hypermagnesemia, 283
- Immunoassay**
 carrier, choice of, 107
Immunoassay methods
 advantages of, 117
 agglutination inhibition, 116
 analysis of results
 application to biological fluids, 116
 enzyme immunoassay, 115
 immunoradiometric assay, 116
 limitations of, 118
 radioimmunoassay, 113
 spin label immunoassay, 115
 viroimmunoassay, 116
 Immunoradiometric assay, 116
 Indomethacin, immunoassay, 132
Innervation
 adrenergic
 of oviduct, 74
 of oviduct, role in regulation of mammalian ovum transport, 67
 efferent, origin, in oviduct, 74
 conjugation method, choice of, 107
 drug, development of, 107
 general principles, 104
 parasympathetic, of developing heart, 5
 Insecticides, immunoassay, 161
Ion contents
 effects of ouabain, cocaine, procaine, phenytoin, acetazolamide, barbiturates, lithium, ethanol, tetrodotoxin, protoveratrine, and chlorpromazine, 45
 intra- and extracellular concentrations in CNS, effects of barbiturates, metrazol, ouabain, tetrodotoxin and aminopyridines, 38
 water and, 45
Ion distribution
 drug-induced alterations of, at the cellular level of the central nervous system, 35
 in the CNS
 effects of ouabain and barbiturates, 42
 metabolic manifestations of alterations in, 42
Ion transport, effects of ouabain, barbiturates, and phenytoin, 49
 Isoniazid, immunoassay, 126
 Immunization, drug-protein conjugates, 109
- Johns, Anthony. See Paton *et al.*, 67

 magnesium in renal failure, 276
 normal, and electrolyte transport, effects of hyper-
- magnesemia, 286
- Kizer, John S., Youngblood, William W., and Nemeroff, Charles B. Neurotoxic amino acids and structurally related analogs, 301
- "Labilizers," effects on metabolism, 43
 Lanatoside C, immunoassay, 140
Lithium
 effect on ion contents, 45
 inhibition of Na⁺,K⁺-ATPase or sodium pump activity, 211
 Loperamide, immunoassay, 130
 Lysergic acid diethylamide, immunoassay, 142
- Macromycin, immunoassay, 135**
Magnesium
 effects on
 metabolism, 43
 peripheral nervous system, 284
 excess, 273
 antagonism of induced effects, 286
 cardiotoxicity, 286
 depression of the carotid baroreceptor by, 285
 effects of, 279
 blood clotting, 287
 bone, 287
 central nervous system, 285
 endocrine systems, 287
 heart, 281
 nervous system, 279
 normal kidney and electrolyte transport, 286
 hypotension and related issues, 283
 hypotension and, 283
 toxicity
 prevention, 289
 recognition of, 289
 treatment, 289
 homeostasis, 274
 hypermagnesemic states, 275
 impaired excretion, 276
 increased absorption due to excessive intake, 275
 in renal failure, 276
 parenteral administration, 278
Medroxyprogesterone acetate, immunoassay, 156
Meperidine, immunoassay, 149
Mescaline, immunoassay, 143
Mesenterics, role, in oviductal function, 95
Mestranol, immunoassay, 157
Metabolism
 effects of "labilizers," ouabain, local anesthetics, tetrodotoxin, chlorpromazine, phenytoin, magnesium, ethanol, and barbiturates, 43
 stimulation of, 43
 uptake and, of noradrenaline, 85
Methadone, immunoassay, 149
Methaqualone, immunoassay, 154
Methotrexate, immunoassay, 135

 Non-tricyclic antidepressants, immunoassay, 128
 Noradrenaline
 biosynthesis of, 84
 cellular mechanism of action, in oviduct, 93
 changes in content of
 correlated with endogenous hormone levels, 81
 during ovum transport, 81
 in oviduct, 79
 with sex hormone administration, 82
 effect of agents which affect levels of, 83
 metabolism of, 85
 uptake of, 85
 Norethindrone (norethisterone), immunoassay, 158
 Norgestrel, immunoassay, 158
 Nortriptyline, immunoassay, 129
 Nucleotide pools, effect on action of 5-halogenated deoxyuridines, 256
 Ochratoxin A, immunoassay, 161
 Ouabain
 effects on
 ion concentrations in the central nervous system, 38
 ion contents, 45
 ion distribution in the CNS, 42
 ion transport, 49
 ion transport in brain slices in resting state, 51
 ion transport in brain slices under stimulation, 53
 metabolism, 43
 effect on
 uptake studies of neurons and/or glial cell cultures, 50
 immunoassay, 131
 Oviduct
 adrenergic innervation of, 74
 role, in regulation of mammalian ovum transport, 67
 adrenergic transmission in, physiological and pharmacological studies related to, 85
 adrenoceptors in, 87
 anatomy of, 70
 efferent innervation, origin, 74
 nerve distribution within, 76
 responses to adrenergic agonists, factors modifying, 89
 response to adrenergic nerve stimulation, modifying factors, 89
 Oviductal function, mesenteries, role of, 95
 Ovum transport
 adrenergic innervation of oviduct, role in regulation of, 67
 pattern of, 68
 mechanism of, 70
 noradrenaline content, changes during, 81
 fertility and, adrenoceptor agonists effect on, 94
 adrenoceptor antagonists effect on, 94
 effect of agents impairing adrenergic transmission, 94
 effect of drugs and procedures that modify sym-
