Tribute to MARION deV. COTTEN

Volume 204 of the *Journal of Pharmacology and Experimental Therapeutics* and Volume 29 of *Pharmacological Reviews* mark the end of an era in these publication efforts of the American Society for Pharmacology and Experimental Therapeutics. Marion deV. Cotten has been the Editor of the *Journal of Pharmacology and Experimental Therapeutics* since 1968 and of *Pharmacological Reviews* as well since 1970. A span of 10 years of such demanding service to the Society and the discipline is a record rarely approached. Through his guidance of the two Editorial Boards, Dr. Cotten maintained and enhanced the premier reputation of the Society's Journals.

The present Editors and the Board of Publications Trustees, joined by the members of the Editorial Boards, both past and present, are pleased to acknowledge their debt to Marion deV. Cotten and express their appreciation for his leadership and service by dedicating to him Volume 206 of the *Journal of Pharmacology and Experimental Therapeutics* and Volume 30 of *Pharmacological Reviews*. We wish in this way to record our thanks to this man for his loyal and devoted service in the interest of our science.
