PHARMACOLOGICAL REVIEWS

INFORMATION FOR SUBSCRIBERS

PHARMACOLOGICAL REVIEWS is published in March, June, September, and December of each year. These four issues constitute one volume. *Annual Subscription Rates*—U. S. A. AND POSSESSIONS: personal, \$30.00; institutional, \$40.00; single copy, \$9.00. FOREIGN: personal, \$35.00; institutional, \$45.00; single copy, \$9.50. Institutional (multiple-reader) rate applies to libraries, schools, hospitals, clinics, group practices, and federal, commercial, and private institutions and organizations. Special rates of \$20.00 (U.S.A.) or \$25.00 (Canada), limited to three years duration, are available in the United States, Canada, and Mexico to graduate students in pharmacology and allied fields, including medical students, interns, residents, and postgraduate students. Orders from graduate students should be countersigned by their departmental chairman as verification of student status.

Change of address. The publisher must be notified 60 days in advance of a change in address. Copies that cannot be delivered because of an incorrect address will be destroyed. Duplicate copies, if available, may be purchased from the publisher at the regular price for single issues.

Correspondence regarding editorial matters should be addressed to the new Editor, Dr. James A. Bain, Office of the Executive Associate Dean, School of Medicine, Emory University, 1440 Clifton Road, N. E., Atlanta, Georgia 30322.

Correspondence regarding subscriptions should be addressed to the publishers or their agents.

New subscriptions will begin with the March issue.

Renewals. Subscriptions should be renewed promptly since the publisher cannot guarantee to supply issues missed because of late renewals.

Reprints of individual articles are available *only* from authors.

Microfilm. For availability, inquire of The Williams & Wilkins Company.

This review journal embraces all aspects of research addressing the study of disease states and the consequent development of therapeutic agents. It features developments in specific areas of medicinal research, including a total review of the history leading up to the introduction of a new pharmaceutical.

Recent and Forthcoming Articles

Fertility Control, M.J.K. Harper

Synthetic Analogues for the Study of GABA as a Neurotransmitter, G. Johnston and R. Allan

Carcinogenicity and Its Effect on Research Programs, R.J. Van Ryzin

6-Ketomorphinans and Their Analgetic Properties, A. Bossi and H. Schmidhammer

Human Interferon, S. Pestka

Piroxicam and Other Antiinflammatory Oxicams, J.G. Lombardino and E.H. Wiseman

Angiotensin Converting Enzyme Inhibitors: Medicinal Chemistry and Biological Actions, M.A. Ondetti and E.W. Petrillo, Jr.

Theoretical Approaches to Drug Design and Biological Activity, P.P. Mager

Recent Synthetic Anticoccidial Agents, Y. Morisawa

Central Actions of Nicotine, M.D. Aceto and B.R. Martin

An Analysis of the Stereochemical Structure-Activity Relationships of C-Methyl Derivatives of the Reversed Ester of Meperidine, A.F. Casy

Clozapin, E.J. Glamkowski

The Role of Toxicology in Drug Research and Development, V.M. Traina

Clinical Application of Platelet Inhibitors in Vascular Diseases, W.W. Fields

Glycolysis Regulation in Normal and Cancer Cells, H. Glossmann and E. Eigenbroth

Naloxone and Naltrexone, M.S. Gold

Tap into the broadest international coverage of the most rapidly growing branch of biological science

The Journal of Neuroscience *the Official Journal of the Society for Neuroscience*

You need **The Journal of Neuroscience** NOW, because there's no better way to keep up with crucial advances that affect YOUR work.

You need its interdisciplinary coverage, its scouting of findings in all areas of neuroscience. You'll appreciate the way it mirrors the objectives of the North American Society for Neuroscience, as well as the Societies in Europe and Japan. And the way it keeps you absolutely up-to-date, no matter where significant breakthroughs occur.

Here's a sampling of recent* articles:

- Morphology and Synaptic Connections of Ultrafine Primary Axons in Lamina I of the Spinal Dorsal Horn: Candidates for the Terminal Axonal Arbors of Primary Neurons with Unmyelinated (C) Axons
- *In Vitro* Resetting of the Circadian Clock in the *Aplysia* Eye
- Rohon-Beard Neurons Arise from a Substitute Ancestral Cell after Removal of the Cell from Which They Normally Arise in the 16-Cell Frog Embryo
- Postnatal Development of Dopaminergic Neurons in the Rabbit Retina
- Brain Peptidase with a Unique Neuronal Localization: The Histochemical Distribution of Dipeptidyl — aminopeptidase II
- Developmental Stage-specific Changes in Lectin Binding to Mouse Cerebellar Cells *In Vitro*
- The Laminar Origin and Distribution of the Crossed Tectoreticular Pathways

Section Editors

Molecular Neuroscience

Solomon H. Snyder

Cellular Neuroscience

Michael V. Bennett

Developmental Neuroscience

Gerald D. Fischbach

Neural Systems

Edward V. Evarts

R. W. Guillery

Behavioral Neuroscience

Eric R. Kandel

The Journal is edited by W. Maxwell Cowan of the Salk Institute for Biological Studies. The Board of Publication Trustees includes Julius Axelrod, Herbert H. Jasper, Seymour S. Kety, Vernon B. Mountcastle, Walle J. H. Nauta, and Pedro N. Rudomin.

Encourage your library to subscribe, and start using this first-rate journal. The institutional fee for a year's subscription is \$230.00. Once your department or institution subscribes, YOU can subscribe for the discount individual rate of \$60.00.

SEND IN THIS COUPON TODAY.

Please sign me up for a year's subscription to **The Journal of Neuroscience**, starting in January, 1982.

Institutional: \$230.00

Discount Individual: \$60.00 (With Institutional subscription).
