

This PDF file is for authors who want
to publish under ASPET's
open access option

PLEASE NOTE: If you select the open access option after acceptance, you will incur additional fees. ***Know your funder's requirements prior to submission.***

If you DO NOT want to publish under ASPET's open access option, complete a Copyright Transfer Form instead.

ASPET is in the process of moving to a new manuscript system. In the new system, this form is online. You only need to use the PDF form if:

- you are required to have the open access license signed by someone who is not an author (e.g., a department head, your legal department, etc.), or
- you submitted your manuscript to the old (BenchPress) system.

You may use additional pages for additional authors. Separate copies of the form may be circulated in order to collect the signatures of all the authors on your manuscript.

Questions about these forms should be sent to the ASPET Journals Department at journals@aspet.org.

Manuscript Number: _____

American Society for Pharmacology and Experimental Therapeutics
Open Access License Agreement for
Pharmacological Reviews

Complete this form in place of a copyright transfer form if you are publishing under the open access option.

Manuscript title: _____

Corresponding author: _____

Telephone number: _____ E-mail: _____

Address: _____

The copyedited and formatted version of accepted manuscripts published under this open access license agreement will be made freely accessible on the journal website immediately upon publication. The open access fee is charged in addition to all other applicable author charges (manuscript submission fee, page charges, and optional reprints). The open access fee must be paid via the Copyright Clearance Center RightsLink® system prior to publication. The corresponding author will receive a form with the article's page proofs for page charges and optional reprints.

Each author must read and sign below. If necessary, copy this document and distribute to coauthors for their signature. Please compile all forms and upload them with the manuscript at the time of submission. In the case of a "work made for hire," the agreement must also be signed by an authorized agent of the Employer. This agreement shall be effective when signed below or in counterpart, and photocopy, facsimile, electronic, or other copies shall have the same effect for all purposes as an ink-signed original.

Authors who select the open access publishing option agree to license their work under either the [CHECK ONE]:

- Creative Commons Attribution 4.0 International (CC BY) - \$3,000.00 plus applicable author charges (<https://creativecommons.org/licenses/by/4.0/>; this license permits unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited)

OR

- Creative Commons Attribution-Noncommercial 4.0 International (CC BY-NC) - \$2,000.00 plus applicable author charges (<https://creativecommons.org/licenses/by-nc/4.0/>; this license permits noncommercial unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited)

In consideration of The American Society for Pharmacology and Experimental Therapeutics ("the Publisher") reviewing, editing, and publishing this submission ("the Work") in *Pharmacological Reviews* when and if the Work is accepted for publication, the undersigned author(s) ("the Authors") or, where the Work is a "work made for hire" for an employer ("the Employer"), the Employer agrees to the following terms:

- A. To pay the applicable open access fee and other author fees such as the manuscript submission fee, page charges, and—if incurred—reprint charges.
- B. The Author(s) or the Employer retains ownership of all rights under copyright in all versions of the Work, and all rights not expressly granted in this agreement.
- C. To facilitate dissemination of the Work, the Author(s)/Employer grants to the Publisher during the full term of the Author's(s)/Employer's copyright and any extensions or renewals, a nonexclusive license of all rights of copyright in and to the Work, and all rights therein, including but not limited to the right to publish, republish, transmit, sell, distribute, and otherwise use the Work in whole or in part in electronic and print editions of the journal and in derivative works throughout the world, in all languages and in all media of expression now known or later developed, and to license or permit others to do so.
- D. All Authors listed in the Work agree to its publication and to this agreement.
- E. The Author(s) or, if applicable, the Employer, warrants that his/her contribution is original; that he/she has full power to make this grant; and the Work does not infringe the copyright or any other proprietary right (including without limitation the copyright, patent, or trademark rights) of any party.
- F. The Work contains no libelous or otherwise unlawful matter and statements.

- G. Either that the Work has not been previously published or, if portions have been previously published, that permission has been obtained for publication for all uses as set forth in the Creative Commons license selected and the Author(s) will submit a copy of the permission release and language for credit lines with his/her manuscript.
- H. Neither the Author(s) nor the Employer will receive any royalty or other monetary compensation from the Publisher for publishing the Work.
- I. In accordance with the Creative Commons License selected above, users are free (i) to copy, distribute, and transmit the work, (ii) to make derivative works, and (iii) to use this Work for other purposes (for only noncommercial purposes if the CC BY-NC license is selected).
- J. The Publisher will publish and distribute the Work with the appropriate copyright notice in the name of the Author(s)/Employer where applicable.
- K. Attribution: Original authorship must be fully attributed, and *Pharmacological Reviews* must be attributed as the original source of publication with proper citation details.

Use the section below if your manuscript is a work made for hire or your employer for any reason requires personnel in addition to, or in place of the authors, to sign this license agreement.
